

Annual Summit On

AI, ML AND BIG DATA ANALYTICS

February 26-27, 2020 | Dubai, UAE

Theme: Exploring the Innovations and Excellence in Artificial Intelligence and Machine Learning

SESSIONS

Information fusion
Neural systems
Nano-Biotechnology
Evolutionary Computation
Machine learning and computing
Machines and Minds
Computer vision and perception
Virtual Intelligence
Artificial Neural Network
Robotic Process Automation (RPA)
Speech recognition
Natural Language Processing (NIP)
Data mining with big data
Cyber Defence
Cyber Security
Robotics
Machine Learning
Decision Management
Artificial Intelligence and Advances
AI Machine Learning in Health Care & Medical Science
Big Data Algorithms
Big Data Analysis
Data Mining
Computer vision
Image Processing
Cloud Computing

TENTATIVE PROGRAM

DAY 1

DAY 2

Planary Talk	Keynote
11.00 - Break1	11.00 - Break1
Keynote	Oral Sessions
13.00 - Lunch	Natural Language Processing (NIP)
Oral Sessions	Data mining with big data
Information fusion	Cyber Defence
Neural systems	Cyber Security
Nano-Biotechnology	Robotics
Evolutionary Computation	13.00 - Lunch
Oral Medicine	Oral Sessions
Machine learning and computing	Machine Learning
Machines and Minds	Decision Management
Computer vision and perception	Artificial Intelligence and Advances
Virtual Intelligence	16.00 Break 2
Artificial Neural Network	Poster Presentations
Robotic Process Automation (RPA)	
Speech recognition
